1. How to Open Workforce ERP

Workforce ERP runs on a central server computer. You access it through a web browser — no software installation is needed on your computer.

What You Need

- **Web Browser:** Google Chrome or Microsoft Edge (recommended)
- **Network:** Your computer must be connected to the same company network as the server

Steps to Open

- 1 Open **Google Chrome** or **Microsoft Edge** on your computer.
- 2 In the address bar (top of browser), type: `http://192.168.1.31:3001`
- 3 Press **Enter** on your keyboard.
- 4 The Workforce ERP login screen will appear.

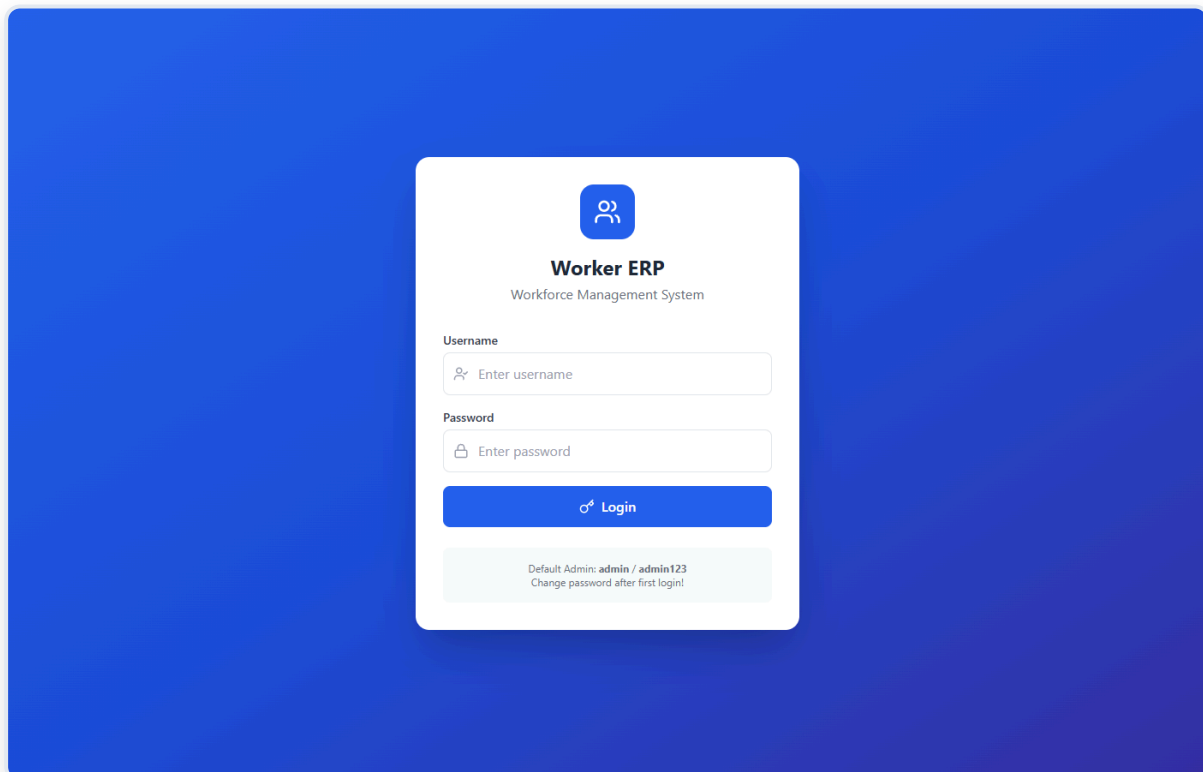

Figure 1: Workforce ERP Login Screen

 **Tip:** Bookmark this page in your browser for quick access. Press Ctrl+D to bookmark.

 **Important:** The server computer must be turned ON and running for you to access Workforce ERP. If the page does not open, contact your IT administrator.

2. Login

Every HR user has their own username and password. Your login gives you access only to your assigned unit/factory.

Steps to Login

- 1 Enter your **Username** in the first field.
- 2 Enter your **Password** in the second field.
- 3 Click the **Login** button.
- 4 The Dashboard will open showing your unit's data.

What HR Can Access

Feature	HR Access
Dashboard	✓ View your unit's data only
Worker Master	✓ Add, Edit, Deactivate workers in your unit
Attendance	✓ View and mark attendance
Leave Control	✓ Apply leaves for company workers
Wage History	✓ View and add wage revisions
Increments	✓ Add May/November increments
Attrition Report	✓ View and export exits
Reports	✓ View and export to Excel
User Management	✗ Only Super Admin can manage users

Note: Your HR login gives access ONLY to your assigned unit. For example, SVN-II HR can see only SVN-II workers. They cannot see SVN-I, Sakar-I, or Sakar-III workers.

 **Important:** Never share your password with anyone. If you forget your password, contact the Super Admin.

3. Dashboard

The Dashboard is the first screen you see after login. It gives you a quick overview of your unit's workforce.

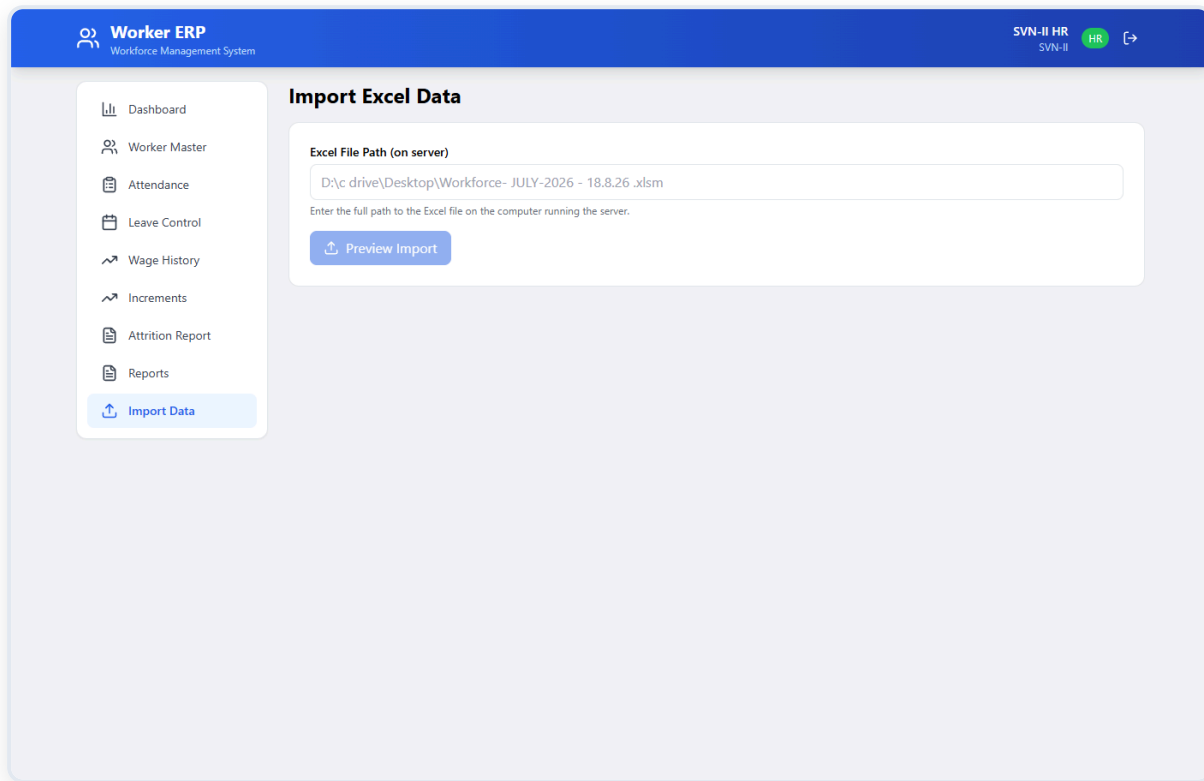

Figure 2: HR Dashboard showing SVN-II unit data

What Each Section Shows

Section	What It Means
Total Workers	Total number of workers in your unit
Active	Workers currently working (not exited)
Inactive	Workers who have left the company
Total CTC	Total monthly cost to company for all workers
Unit-wise Workers	Bar chart showing workers by factory/unit
Contractor-wise	Workers grouped by contractor
PF/ESIC Status	How many workers are PF/ESIC eligible

Department-wiseWorkers grouped by department

 **Tip:** The Dashboard updates automatically whenever data changes. No need to refresh the page.

4. Worker Master

Worker Master is where you manage all worker records — add new workers, edit details, search, and deactivate workers who have left.

Worker Master

Search by ID, Name, Father's Name...

All Units All Status

Code	Name	Unit	Department	Type	Source	Wage	Status	Actions
CONCURRENT01	Concurrent Test	SVN-II	Testing			₹0	Inactive	Edit Delete
SV2PBHA001	Viral B Halpati	SVN-II	FF/Repair	Contractor-PF	Bhavin Bhandari	₹0	Active	Edit Delete
SV2PBHA002	Rahul Halpati	SVN-II	Assembly	Contractor-PF	Bhavin Bhandari	₹0	Active	Edit Delete
SV2PBHA003	Nisha Dilip Varli	SVN-II	Assembly	Contractor-PF	Bhavin Bhandari	₹0	Active	Edit Delete
SV2PBHA004	Sumitra Vinod Halpati	SVN-II	Assembly	Contractor-PF	Bhavin Bhandari	₹0	Active	Edit Delete
SV2PBHA005	Radhika Dubla	SVN-II	Assembly	Contractor-PF	Bhavin Bhandari	₹0	Active	Edit Delete
SV2PBHA006	Renuka Raman Pariya	SVN-II	Assembly	Contractor-PF	Bhavin Bhandari	₹0	Active	Edit Delete
SV2PBHA007	Sainaa kailash Andher	SVN-II	Assembly	Contractor-PF	Bhavin Bhandari	₹0	Active	Edit Delete
SV2PBHA008	Manojbhai Warli	SVN-II	Wire Cutting	Contractor-PF	Bhavin Bhandari	₹0	Active	Edit Delete
SV2PBHA009	Nisha Pravin Halpati	SVN-II	Packing	Contractor-PF	Bhavin Bhandari	₹0	Active	Edit Delete

Figure 3: Worker Master — list of workers in your unit

4.1 Search for a Worker

- 1 Click on **Worker Master** in the left sidebar.
- 2 In the **Search** box, type the worker's code (e.g., SV2PBHA001) or name.
- 3 The list will filter automatically as you type.

4.2 Filter Workers

- 1 Use the **Unit** dropdown to filter by unit (if you have access to multiple).
- 2 Use the **Status** dropdown to show Active or Inactive workers.

4.3 Add a New Worker

- 1 Click the **+ Add Worker** button (top right).
- 2 Fill in the required fields: **Worker Code, Name, Unit, Department**.
- 3 Fill other fields as available: Father Name, Gender, DOJ, DOB, Wage, PF status.
- 4 Click **Save**.

⚠ Important: Worker Code must be unique. If a worker code already exists, the system will show an error. Use a different code.

4.4 Edit a Worker

- 1 Find the worker using Search.
- 2 Click the **Edit** (pencil ) icon in the Actions column.
- 3 Make your changes in the form.
- 4 Click **Update**.

4.5 Deactivate (Exit) a Worker

- 1 Find the worker using Search.
- 2 Click the **Delete** (trash ) icon.
- 3 Confirm the deactivation.
- 4 The worker status changes to **Inactive**. Historical data is preserved.

i Note: Deactivating a worker does NOT delete their records. All attendance, wage, and leave history remains available for reports.

Important Fields Explained

Field	Meaning
-------	---------

Worker Code	Unique ID for the worker (e.g., SV2PBHA001)
Unit	Factory/plant where the worker works
Type	Company, Contractor-PF, or Contractor-Non-PF
Source	Contractor name (if applicable)
PF Flag	YES = PF applicable, NO = Not applicable
Total Wage	Daily wage rate in ₹
Status	Active = working, Inactive = left

5. Attendance

The Attendance module shows monthly attendance records for all workers in your unit.

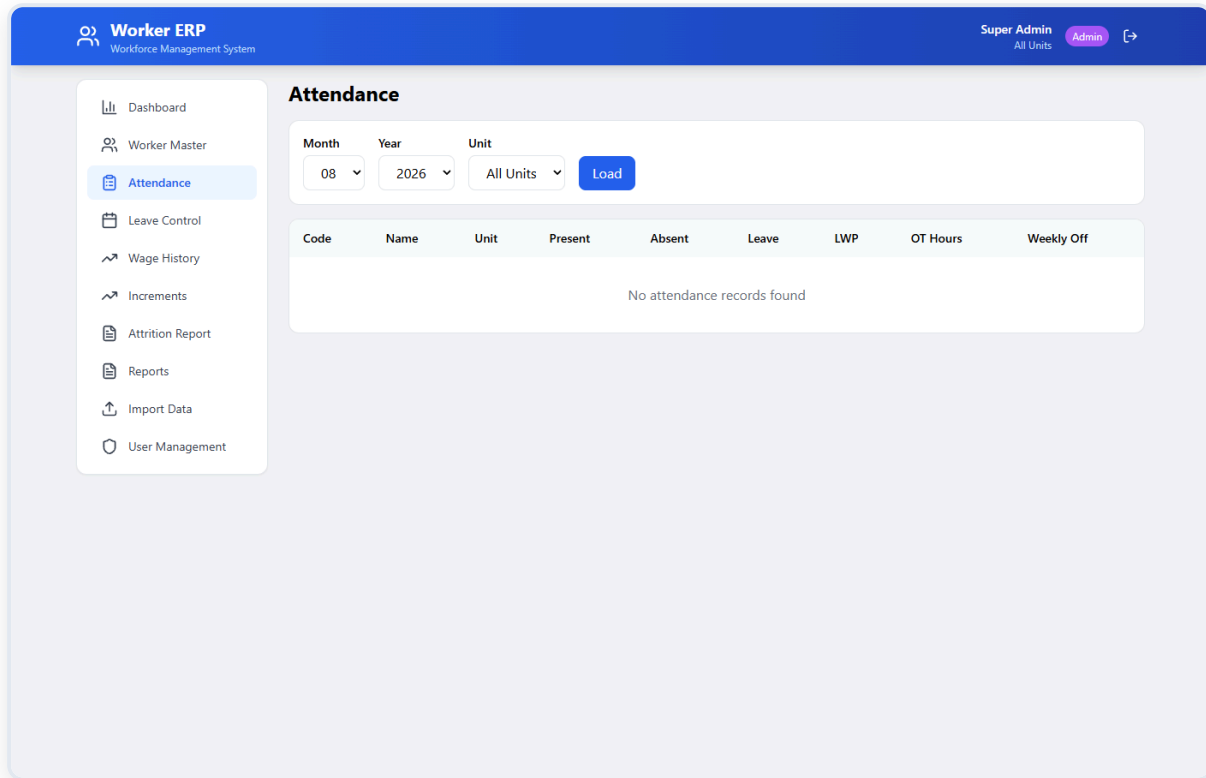

Figure 4: Attendance view with month and unit filters

How to View Attendance

- 1 Click **Attendance** in the left sidebar.
- 2 Select the **Month** and **Year** from the dropdown.
- 3 Select your **Unit** from the dropdown (or leave blank for all accessible units).
- 4 Click the **Load** button.

Understanding the Columns

Column	Meaning
Present	Number of days worker was present

Absent	Number of days worker was absent
Leave	Number of days on leave
LWP	Leave Without Pay days
OT Hours	Extra/Overtime hours worked
Weekly Off	Sundays/holiday offs

6. Leave Control

Leave Control manages leave balance and leave applications for **Company-roll workers only**.

⚠ Important: Leave Control does NOT apply to Contractor workers. Only workers with Type = "Company" are included in leave management.

Code	Name	Unit	Allocated	Taken	Remaining	Actions
SV2PCOM002	SUDHA	SVN-II	0	0	0	Apply Leave
SV2PCOM003	Neela Magan Patel	SVN-II	0	0	0	Apply Leave
SV2PCOM004	Kanchan Ilesh Patel	SVN-II	0	0	0	Apply Leave
SV2PCOM005	Shirinbanu Nurmahmad Shaikh	SVN-II	0	0	0	Apply Leave
SV2PCOM006	Jashoda Ajit Patel	SVN-II	0	0	0	Apply Leave
SV2PCOM007	Patel Kokilaben Bipinbhai	SVN-II	0	0	0	Apply Leave
SV2PCOM008	Patel Sangitaben Kamleshbhai	SVN-II	0	0	0	Apply Leave
SV2PCOM009	Patel Manishaben Rajeshbhai	SVN-II	0	0	0	Apply Leave
SV2PCOM010	Varli Ravibhai	SVN-II	0	0	0	Apply Leave
SV2PCOM011	Halapti vikas Dhirubhai	SVN-II	0	0	0	Apply Leave
SV2PCOM012	Patel Rina Hemant	SVN-II	0	0	0	Apply Leave
SV2PCOM013	Nayka Kalaben Dineshbhai	SVN-II	0	0	0	Apply Leave
SV2PCOM014	Halpati Yogitaben Bhagubhai	SVN-II	0	0	0	Apply Leave
SV2PCOM015	Patel Rasilaben Ajitbhai	SVN-II	0	0	0	Apply Leave
SV2PCOM016	Shantiben Dhirubhai Akis	SVN-II	0	0	0	Apply Leave

Figure 5: Leave Control — shows company workers with leave balances

6.1 Understanding Leave Balance

Column	Meaning
Allocated	Total leaves given for the year (default: 24)
Taken	Leaves already used this year
Remaining	Leaves still available (Allocated - Taken)

6.2 Apply Leave for a Worker

- 1 Find the worker in the Leave Control list.
- 2 Click **Apply Leave** next to their name.
- 3 A form will open showing the worker's leave balance.
- 4 Select **Leave Type**: Casual, Sick, Earned, or LWP.
- 5 Enter **From Date** and **To Date**.
- 6 Enter the **number of days**.
- 7 Enter a **Reason** (optional).
- 8 Click **Apply Leave**.

i Note: If remaining leave is less than the days requested, the system will show an error. The worker must have enough leave balance.

6.3 Export Leave Report to Excel

- 1 On the Leave Control page, click **Export Excel** button (top right).
- 2 An Excel file will download to your computer's Downloads folder.
- 3 Open the file to view the leave report for all company workers.

7. Wage History

Wage History tracks every wage change for a worker with the effective date. **Never overwrite the old wage directly** — always use Wage History to record changes.

⚠ Important: Do NOT simply edit the worker's wage in Worker Master. Always use Wage History to maintain an audit trail of all wage changes.

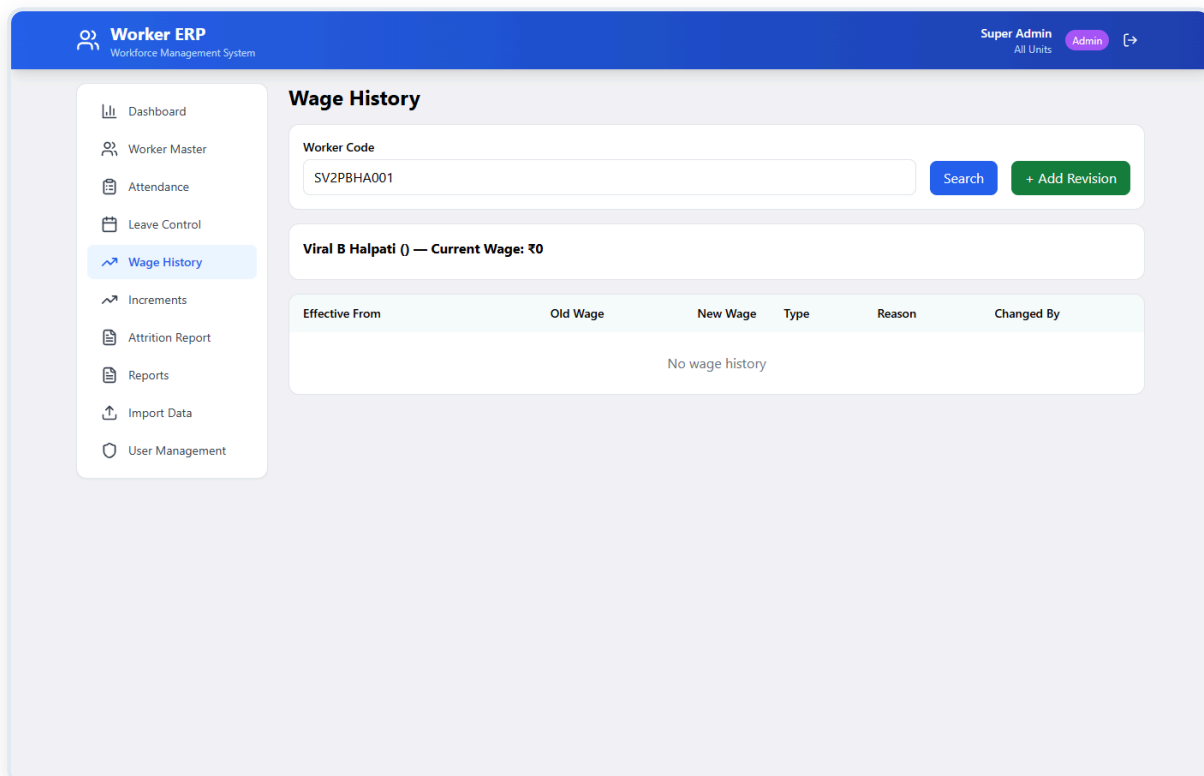

Figure 6: Wage History showing all wage changes for worker SV2PBHA001

7.1 View Wage History

- 1 Click **Wage History** in the left sidebar.
- 2 Enter the **Worker Code** in the search box.
- 3 Click **Search**.
- 4 All past wage changes for this worker will be displayed.

7.2 Add a Wage Revision

- 1 Search for the worker first.
- 2 Click + **Add Revision** button.
- 3 Enter **Effective From** date (the date from which new wage applies).
- 4 Select **Change Type**: Revision, May Increment, November Increment, or Mid-Month Revision.
- 5 Enter the **New Total Wage** (₹).
- 6 Enter Basic Wage, HRA, and Other Allowance (if known).
- 7 Enter **Reason/Remarks** (e.g., "Annual revision", "Performance bonus").
- 8 Click **Save Revision**.

Understanding the Wage History Columns

Column	Meaning
Effective From	Date from which the new wage applies
Old Wage	Previous daily wage (₹)
New Wage	Updated daily wage (₹)
Type	Revision, May Increment, November Increment, etc.
Reason	Why the wage was changed
Changed By	Which HR user made the change

 **Tip:** The system automatically calculates monthly wages based on the Effective From date. If a wage changes mid-month, only the applicable rate is used.

8. Increments (May / November)

The Increments module is used for annual wage revisions — typically May Increment and November Increment. It also supports special mid-month revisions.

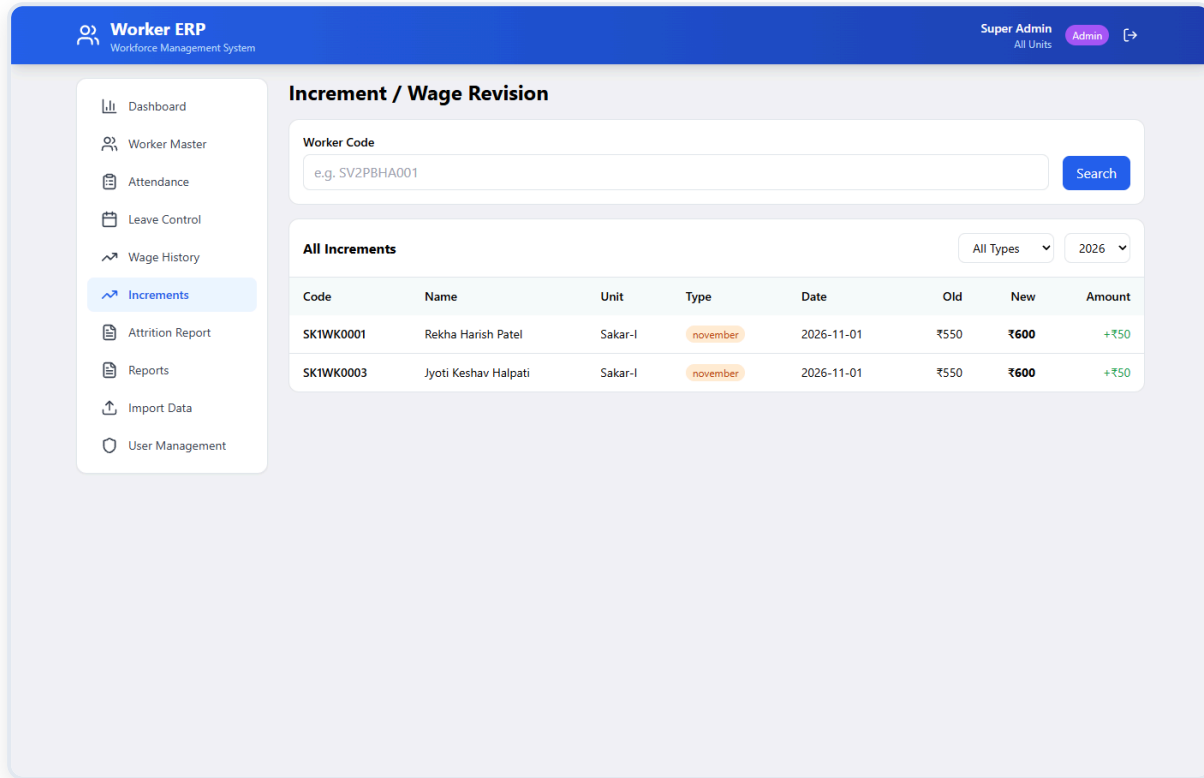

Figure 7: Increment management screen

8.1 Types of Increments

Type	When Used
May Increment	Annual increment typically given in May
November Increment	Mid-year increment typically given in November
Special / Mid-Month	Any other wage revision outside the regular cycle

8.2 Add an Increment

- 1 Click **Increments** in the left sidebar.
- 2 Enter the **Worker Code** and click **Search**.

3 Click + **Add Increment**.

4 Select **Increment Type**: May, November, or Special.

5 Enter **Effective From** date.

6 Enter **New Wage** (₹).

7 Enter **Reason** (e.g., "Annual May 2026 increment").

8 Click **Save Increment**.

i Note: The system automatically calculates the increment amount (New Wage - Old Wage) and percentage. You only need to enter the new wage.

8.3 View All Increments

Scroll down on the Increments page to see "All Increments" — a table of all increments across workers. Use the filters to view by type (May/November/Special) and year.

9. Attrition Report (Worker Exit)

When a worker leaves the company, you record their exit. The worker becomes inactive but all historical data remains available.

Worker ERP
Workforce Management System

Super Admin All Units Admin [→]

Attrition Report [Export Excel](#)

Year: 2026 Month: All Months Unit: All Units

Worker Code	Name	Unit	Department	Type	Source	Joining Date	Exit Date	Reason
SK1WK0001	Rekha Harish Patel	Sakar-I	D.W.	Company	Company	46054	2026-08-20	Personal reasons
SK1WK0003	Jyoti Keshav Halpati	Sakar-I	Packing	Company	Company	46054	2026-08-20	Left job

Total exits: 2

Figure 8: Attrition Report showing exited workers

9.1 Record a Worker Exit

- 1 Go to **Worker Master**.
- 2 Search for the worker.
- 3 Click the **Edit** (pencil ) icon.
- 4 Enter the **Exit Date**.
- 5 Enter the **Exit Reason** (e.g., "Resigned", "End of contract", "Personal reasons").
- 6 Click **Update**.

- 7 The worker status changes to **Inactive**.

9.2 View Attrition Report

- 1 Click **Attrition Report** in the left sidebar.
- 2 Select **Year** to filter exits by year.
- 3 Select **Month** to filter exits by month (optional).
- 4 Select **Unit** to filter by factory (optional).
- 5 The report shows: Worker Code, Name, Unit, Department, Type, Source, Joining Date, Exit Date, Reason.

9.3 Export Attrition Report

- 1 Set your filters (year, month, unit).
- 2 Click **Export Excel** button (top right).
- 3 An Excel file will download with the filtered attrition data.

10. Reports & Excel Export

Workforce ERP provides several reports that can be exported to Excel.

Worker ERP
Workforce Management System

Super Admin

2026 Export Excel

Leave Control

Leave control applies to **Company-roll workers only**. Contractor workers are excluded.

Code	Name	Unit	Allocated	Taken	Remaining	Actions
SV2PCOM002	SUDHA	SVN-II	0	0	0	Apply Leave
SV2PCOM003	Neela Magan Patel	SVN-II	0	0	0	Apply Leave
SV2PCOM004	Kanchan Ilesh Patel	SVN-II	0	0	0	Apply Leave
SV2PCOM005	Shirinbanu Nurmahmad Shaikh	SVN-II	0	0	0	Apply Leave
SV2PCOM006	Jashoda Ajit Patel	SVN-II	0	0	0	Apply Leave
SV2PCOM007	Patel Kokilaben Bipinbhai	SVN-II	0	0	0	Apply Leave
SV2PCOM008	Patel Sangitaben Kamleshbhai	SVN-II	0	0	0	Apply Leave
SV2PCOM009	Patel Manishaben Rajeshbhai	SVN-II	0	0	0	Apply Leave
SV2PCOM010	Varli Ravibhai	SVN-II	0	0	0	Apply Leave
SV2PCOM011	Halapati vikas Dhirubhai	SVN-II	0	0	0	Apply Leave
SV2PCOM012	Patel Rina Hemant	SVN-II	0	0	0	Apply Leave
SV2PCOM013	Nayka Kalaben Dineshbhai	SVN-II	0	0	0	Apply Leave
SV2PCOM014	Halpati Yogitaben Bhagubhai	SVN-II	0	0	0	Apply Leave
SV2PCOM015	Patel Rasilaben Ajitbhai	SVN-II	0	0	0	Apply Leave
SV2PCOM016	Shastikha Bhikubhai Akh...	SVN-II	0	0	0	Apply Leave

Figure 9: Reports page with available report types

Available Reports

Report	What It Shows
Worker Master Report	Complete list of all workers with details
Unit-wise Report	Workers grouped by unit with counts
Contractor-wise Report	Workers grouped by contractor/source
Department-wise Report	Workers grouped by department
PF/ESIC Report	Workers with PF and ESIC status
Attendance Report	Monthly attendance summary
Leave Report	Leave balances for all company workers
Attrition Report	All exited workers with reasons

How to Export Any Report

- 1 Click **Reports** in the left sidebar.
- 2 Click **Export Excel** on the report you need.
- 3 The Excel file will download to your Downloads folder.
- 4 Open the file in Microsoft Excel.

i Note: Reports respect your unit access. SVN-II HR will only see SVN-II data in reports.

11. Import Data from Excel

You can import worker data from an Excel file. The system will add new workers and skip duplicates.

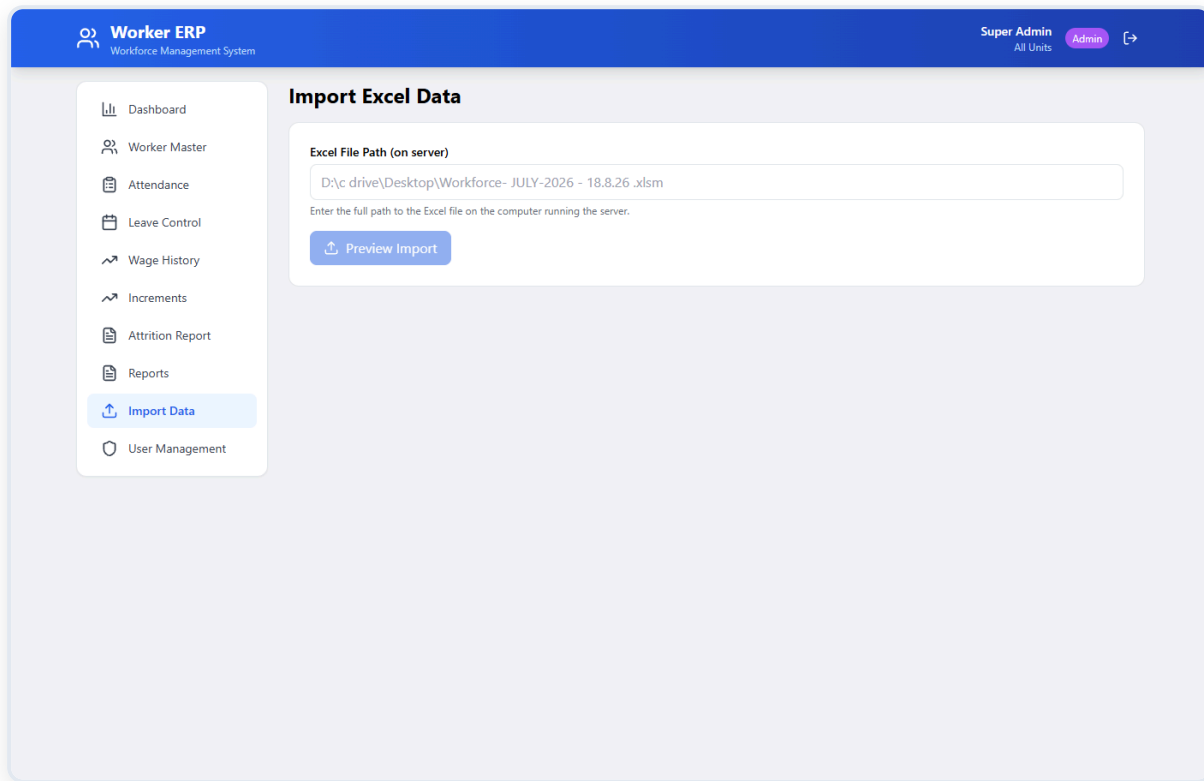

Figure 10: Import Data screen

How to Import

- 1 Click **Import Data** in the left sidebar.
- 2 Enter the **full file path** of the Excel file on the server computer (e.g., D:\data\workers.xlsx).
- 3 Click **Preview Import**.
- 4 The system will show: New Workers, Duplicates, Invalid Records, Final Total.
- 5 Review the preview carefully.
- 6 Click **Confirm Import** to add the new workers.

 **Important:** Import uses the **merge** approach: new workers are added, existing workers (same Worker Code) are skipped. Your existing data is never overwritten.

 **Note:** The Excel file must contain a sheet named "MASTER_Workers" or "Workers". Column names should match: Worker_Code, Name, Unit, Department, etc.

12. Logout

Always log out when you are done, especially on shared computers.

Steps to Logout

- 1 Click the **Logout** button ( icon) in the top-right corner of the header.
- 2 You will be returned to the login screen.
- 3 Close the browser tab if you are done.

 **Important:** Always logout before leaving your computer unattended. Your session stays active for 24 hours if you don't logout.

13. HR Do's & Don'ts

✓ Do's

- ✓ **Always use Wage History** to record wage changes — never overwrite directly.
- ✓ **Check Effective From date** carefully before saving wage revisions.
- ✓ **Verify attendance** before finalizing monthly records.
- ✓ **Check leave entries** for accuracy — ensure correct dates and leave type.
- ✓ **Record worker exit properly** with exit date and reason.
- ✓ **Export and save** important reports regularly.
- ✓ **Keep your password secure** — do not share with anyone.
- ✓ **Logout** when you are done, especially on shared computers.

✗ Don'ts

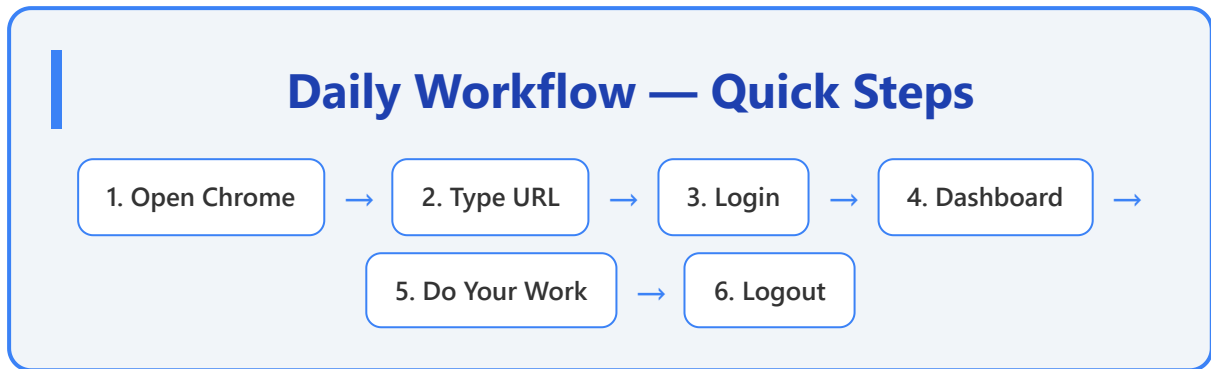

- ✗ **Do not share** your login credentials.
- ✗ **Do not delete** worker records unnecessarily — use Deactivate instead.
- ✗ **Do not overwrite** wages directly in Worker Master — use Wage History.
- ✗ **Do not apply leave** for contractor workers — leave is only for company-roll workers.
- ✗ **Do not forget** to record exit date when a worker leaves.
- ✗ **Do not skip** the preview step when importing Excel data.

14. Troubleshooting

Problem	Solution
Page not opening <i>ERR_CONNECTION_TIMED_OUT</i>	Check if the server computer is ON. Check if your computer is connected to the company network. Try typing the URL again: <code>http://192.168.1.31:3001</code>
Login failed <i>Invalid credentials</i>	Check your username and password. Passwords are case-sensitive. Contact Super Admin if you forgot your password.
Failed to fetch	The server may be temporarily busy. Wait 10 seconds and try again. If the problem persists, contact IT.
Server unavailable	The server computer may have restarted. Wait 2-3 minutes for the server to start. If still not working, contact IT.
Report not loading	Try refreshing the page (press F5). If the report still doesn't load, reduce the filter range (smaller date range).
Excel export not working	Check if your browser is blocking downloads. Look for a download bar at the bottom of the browser. Try a different browser (Chrome/Edge).
Worker Code already exists	This worker code is already in the system. Use a different code or search for the existing worker.
Insufficient leave balance	The worker does not have enough remaining leave days. Check their balance before applying.

 **Tip:** If none of the above solutions work, take a screenshot of the error and send it to your IT administrator.

15. Quick Reference Card

Login Credentials

Unit	HR Username	Password
SVN-I	hr_svn1	Work@2026
SVN-II	hr_svn2	Work@2026
Sakar-I	hr_sakar1	Work@2026
Sakar-III	hr_sakar3	Work@2026

⚠ Important: Change your password after first login! Contact Super Admin for password change.

Key Keyboard Shortcuts

Action	How
Refresh page	F5
Bookmark page	Ctrl + D
Open new tab	Ctrl + T

HR Daily Checklist

- ☐ Open Workforce ERP and login
- ☐ Check Dashboard for any alerts

- ☐ Review and update attendance for the day
- ☐ Process any pending leave requests
- ☐ Add new workers if any joinings
- ☐ Record exits for workers who have left
- ☐ Export any required reports
- ☐ Logout when done

For technical support, contact your IT administrator or Super Admin.

Workforce ERP v2.0 — August 2026
